Dear Mr. Hedberg:

Enclosed are copies of the following mining notices:

<u>BLM Serial Number</u>	<u>Operator</u>
UT-054-92-08N	Jumbo Mining
UT-054-92-09N	Jumbo Mining

These are sent to you in accordance with the Memorandum of Understanding between our two agencies.

UT-056-13N, which we sent to you on July 10, 1992, has been administratively closed and combined with UT-054-92-09N.

Also enclosed is a map of Amasa Valley with highlighted locations of several cabins located on state sections.

In the southwest corner of section 36 there is an old cabin and mill. The mill was active about 40 years ago and processed tungsten. The cabin is locked, but is not habitable.

The cabin in the northwest corner of section 2 is locked and habitable. The other one in the central part of the section is abandoned and disintegrating.

Please let us know if you can make it out there to meet with Rody and Sheri on August 1. If you have any questions, please call Rody at 743-6811.

Sincerely,

Rex Rowley
Area Manager
